

Hi Frank, it's Denver. I just want to thank you for making the FLKS possible, by sponsoring financially. Without you none of this could've happen. This extra Math-classes also contributed to my huge success in Mathematics in the end of grade 12. I also heard that you are an Economist, matter-of-fact I am interested in becoming an Economist too. That's I'm going to do a BComm in Economic Sciences this year at Stellenbosch University. For me you are not just an ordinary guy, you are my rolemodel and an inspiration for my future career. I would like to stay in touch for a very long time.

Thank you again for everything.
From Denver.
